AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's review report originally issued in Turkish,
See Note I of Section Three)

To the Board of Directors of HSBC Bank A.Ş.;

Introduction

We have reviewed the consolidated balance sheet of HSBC Bank A.Ş. ("the Bank") and its consolidated subsidiaries (collectively referred to as "the Group") at 30 September 2017 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the nine-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by BRSA Accounting and Reporting Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the financial position of HSBC Bank A.Ş. and its consolidated subsidiaries at 30 September 2017 and of the results of its operations and its cash flows for the nine-month-period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim report in Section Seven, is not consistent with the consolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. EXPLANATIONS ON BASIS OF PRESENTATION

a. The preparation of the consolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures Regarding Banks’ Accounting Application and Keeping Documents:

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Act numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards, within the scope of interim reporting Turkish Accounting Standards 34 and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (referred as “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all referred as “Reporting Standards”). The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Group maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

The consolidated financial statements have been prepared in TL, under the historical cost convention as modified in accordance with inflation adjustments until 31 December 2004, except for the financial assets and liabilities which are carried at fair value.

The preparation of the consolidated financial statements in conformity with TAS requires the Parent Bank Management to use of certain make assumptions and estimates on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are reviewed regularly and, when necessary, corrections are made and the effects of these corrections are reflected to the income statement. The estimations and projections used are explained in the corresponding disclosures.

The amendments of TAS and TFRS, except TFRS 9 Financial Instruments will come into force as of 1 January 2018, which have been effective as of reporting date have no impact on the accounting policies, financial position and performance of the Group.

b. Accounting policies and valuation principles applied in the preparation of consolidated financial statements:

The accounting policies and valuation principles applied in the preparation of consolidated financial statements are determined and applied in accordance with the reporting standards. These accounting policies and valuation principles are explained in explanations on accounting policies section.

The Parent Bank, diversify its funding sources and keeping cash and cash equivalent adequately for constitute the provider liquidity structure which matured liability affordability.

The Group applies advanced methods of the Group in daily market risk managing and control activities. In measuring the market risk and determining limits, “Value at Risk” (“VaR”) approach is being applied. For the portfolios which are subject to market risk; interest rate and currency risks are monitored; with regard to this, limits such as daily and monthly maximum loss limits regarding the exchange rate and share price risk, Value at Risk limits, maturity limits and quantity limits are being applied. The limit usages are being monitored through various checkpoints and reported to the top management. Risk monitoring and control activities are being performed by independent units. For the portfolios which are subject to the interest risks, sensitivity of the changes in interest rates are being analyzed by “Present Value Basis Points” method (“PVBP”) and relevant limits are being determined.

Various stress scenarios, liquidity, gap, and volatility analysis have been performed regarding the control, monitor and management of the market risks. The purpose of these analyses is to be prepared for the possible risks and to make quick decisions regarding the targeted profitability.

Analyses that are conducted related to determined risks are being tracked by committees such as the Asset-Liability Committee and the Market Risk Committee and value adding decisions are made. The foreign exchange gains and losses from the foreign exchange transactions are being recorded at the date of transactions conducted. Foreign currency denominated monetary assets and liabilities are translated with the Parent Bank’s exchange rates. Gains and losses arising from such valuations are recognised in the income statement under the account of “Foreign exchange gains or losses”, except for foreign currency non-performing loans and other foreign currency denominated non monetary assets and liabilities.

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

In order to reduce the foreign exchange position risk the Parent Bank conducts currency forward purchase and sale transaction agreements, currency swap purchase and sale transaction agreements and option purchase and sale agreements. In order to reduce the interest risk, the Group conducts interest futures, interest swaps and forward interest rate agreements. According to TAS 39 the transactions which are classified as hedging or trading and recognised at fair value. The fair value of derivative instruments are recorded on the market value or discounted cash flow value is taken in the account. If the fair value of derivative financial instruments is positive, it is disclosed under the main account “Financial assets at fair value through profit or loss” in “Trading derivative financial assets” or “Hedging derivative financial assets” and if the fair value difference is negative, it is disclosed in “Trading derivative financial liabilities” or “Hedging derivative financial liabilities”. The fair value changes of the trading derivatives are recognized under “Derivative financial transactions gains/(losses)” at income statement. Until 30 June 2017, The Parent Bank applied cash flow hedge accounting by cross currency swap transactions in order to hedge itself from the changes in the interest rates of the fixed-rate time deposits which have maturity of 1-3 month. The Parent Bank has performed strength tests for risk protection accounting in balance sheet date. While the effective portions are accounted under “Hedging Reserves” in shareholders’ equity as described in TAS 39, the ineffective portion is recognized at income statement.

If the underlying hedge does not conform to the hedge accounting requirements, according to the adjustments made to the carrying value (amortized cost) of the hedged item, for which the risk is hedged by a portfolio hedge, are amortized with the straight line method within the time to maturity and recognized under the profit and loss accounts. As of 30 September 2017, hedge accounting is not applied.

VII. EXPLANATIONS ON FINANCIAL ASSETS

The Group categorizes its financial assets as “Fair value through profit/loss”, “Available-for-sale”, “Loans and receivables” and “Held-to-maturity”. The appropriate classification of financial assets of the Group is determined at trade dates.

a. Financial assets at fair value through profit or loss:

Financial assets at fair value through profit or loss consist of trading financial assets and financial assets at fair value through profit or loss. They are initially recognised at cost and subsequently re-measured at their fair value. While determining the fair value, the weighted average price comprising in the active market is used and the gains and losses generated is recognized in the income statement.

Derivative financial instruments are treated as trading financial assets unless they are designated as hedge instruments. The principles regarding the accounting of derivative financial instruments are explained in detail in Note IV of Section Three.

b. Financial assets available-for-sale:

Available-for-sale financial assets are defined as financial assets other than the ones classified as “Loans and receivables”, “Held-to-maturity assets” or “Financial asset at fair value through profit or loss”. Financial assets available for sale are measured at fair value. Unrealized gains and losses arising from the changes in the fair value of financial assets available for sale with fixed maturity and certain cash flow are recognised at “Marketable Securities Valuation Differences” under the shareholders’ equity. The interest income which is calculated with the effective interest rate method is recognised in the income statement. When these securities are disposed of, the related fair value differences accumulated in the shareholders’ equity are transferred to the income statement. Available-for-sale equity securities that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value and mentioned valuation differences are recognised at “Marketable Securities Valuation Differences”. Available-for-sale equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

c. Loans and receivables:

Financial assets that are originated by the Group by providing money, services or goods to borrowers are categorized as loans and receivables. Loans and receivables originated by the Group are recognised at the amortised cost value calculated using the effective interest rate method.

The Group makes risk assessment for the loans and receivables on the consumer and portfolio basis and provides specific provisions for the non performing loans not less than the determined minimum rates according to the (“Regulation on Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be set aside”) published in the Official Gazette dated 1 November 2006 and numbered 26333. In addition to the non-performing loans, the Group provides general loan loss provisions for the loans and receivables which are defined in the same communiqué. The interests and accruals of the non-performing loans are derecognised from the financial statement and provision expense is recognized in the income statement . Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

d. Investment securities held-to-maturity:

Investment securities held-to-maturity are financial assets that are not classified under loans and receivables and have fixed maturities and fixed or pre-determined payments where management has the intent and ability to hold the financial assets until maturity. Investment securities held-to-maturity are initially recognised at cost, and subsequently carried at amortized cost using the effective interest rate method; interest earned whilst holding investment securities held-to-maturity is reported as interest income and impairment for these financial assets recognised in the income statement. As of 30 September 2017 and 31 December 2016, the Group has no investment securities held-to-maturity.

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

In each balance sheet date, the Group assesses if there is an objective evidence of the impairment of financial assets or financial asset groups. If such an indicator exists, the Group will perform the calculations. Impairment loss incurs if and only if, there is an objective evidence that the expected future cash flows of financial assets of group of financial assets are adversely affected by an event (“loss event”) incurred subsequent to recognition. In case the loans could not be collected; loans and other receivables are classified in order to provide specific and general provisions in accordance with the Communiqué on “Regulation on the Principles and Procedures Related to the Determination of the Loans and Other Receivables for which Provisions Shall be Set Aside by Banks and to the Provisions to be Set Aside” published in the Official Gazette No. 26333 dated 1 November 2006 and these provisions are changed against the income for the year.

IX. EXPLANATIONS ON OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognised amounts and there is an intention to collect/pay related financial assets and liabilities on a net basis.

**X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES’
LENDING TRANSACTIONS**

Securities subject to repurchase agreements are classified as “Financial assets at fair value difference through profit or loss” and “Available-for-sale securities” in the balance sheet according to the investment purposes and measured according to the portfolio of the Group to which they belong. The interest expense rediscount for funds obtained under repurchase agreement which is calculated with the effective interest rate method are recognised in the income statement. As of 30 September 2017 and 31 December 2016, funds given against securities purchased under agreements to resell (“Reverse repurchase agreements”) are accounted under “Receivables from money market - Receivables from reverse repurchase agreements” in the balance sheet. The difference between the purchase and resell price determined by these repurchase agreements is accrued evenly over the life of repurchase agreements using the effective interest rate method. The Group has no securities lending transactions. "Transactions Related to Foreign Currency Deposits in Turkish Lira Deposits" published by the Central Bank of the Republic of Turkey as of 17 January 2017 are recorded in the balance sheet under cash assets and deposit accounts.

Non-financial assets of the branches werere recognized in accordance with the TFRS 5 and financial assets were recognized in accordance with TAS 39 (Non-finacial and financial assets of the branches were recognized in accordance with TFRS 5 and TAS 39, respectively.). Operations regarding to these branches are classified as ongoing activities in 30 September 2017 financial statement and consolidated under the financial statement of assets and liabilities of the branches. Summary financial information related to branches is presented under explanations and notes related to assets.

As of 30 September 2017 and 31 December 2016, the Group has no discontinued operations property and equipment held-for-sale consist of tangible assets that were acquired due to nonperforming receivables, and are accounted in the financial statements in accordance with the “Communiqué Regarding the Principles and Procedures for the Disposals of Immovable and Commodities Acquired due to Receivables and for Trading of Precious Metal” published in the Official Gazette dated 1 November 2006, No. 26333 and classified as assets held for sale.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

The Group’s intangible assets are composed of software, goodwill and establishment expenditures. Intangible assets are measured in accordance with “Intangible Assets Standard” (“TAS 38”) at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical cost after the deduction of accumulated depreciation and the provision for value decreases. The depreciable amount of an intangible asset is allocated on a systematic basis over its useful life. The costs of the intangible assets purchased before 31 December 2004, end of the high inflation period is accepted as 31 December 2004, are subject to inflation indexation until 31 December 2004. Intangible assets purchased after 31 December 2004 are recognised with their acquisition cost in the financial statements.

There is no net book value of goodwill as of 30 September 2017 (31 December 2016: None).

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

All property and equipment are measured in accordance with “Property, Plant and Equipment Standard” (“TAS 16”) at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, property and equipment is carried at cost less accumulated depreciation and provision for value impairment. The costs of the property and equipment purchased before 31 December 2004 or subject to inflation indexation until 31 December 2004. Property and equipment 31 December 2004 are recognised with their purchase cost in the financial statements. Property and equipment are amortised by using the straight line method based on their useful lives, such as buildings depreciated at rate 2%, transportation vehicles at rates 15% - 20%, furnitures at rate 20%, other tangible assets at rates ranging from 2% to 33%. The depreciation charge for items remaining in the property and equipment for less than an accounting period at the balance sheet date is calculated in proportion to the period the item will remain in property and equipment. Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its net sales revenue. Repair and maintenance expenses in order to increase the useful life of the property and equipment are capitalized, other repair and maintenance costs are recognised as expenses. There are no mortgages, pledges or similar precautionary measures on tangible fixed assets.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Assets acquired under finance lease agreements are capitalized in accordance with “Leases Standard” (“TAS 17”) at the inception of the lease at the “Lower of the fair value of the leased asset or the present value of the lease instalments to be paid for the leased asset”. Leased assets are included in the property and equipment and depreciation is charged on a straight-line basis over the useful life of the asset. If there is any diminution in value of the leased asset, a “Provision for value decrease” is recognised. Liabilities arising from the leasing transactions are included in “Finance lease payables” in the balance sheet. Interest and foreign exchange expenses regarding lease transactions are presented in the income statement. The Group does not provide finance lease services as a “Lessor”. Transactions regarding operational lease agreements are accounted on an accrual basis in accordance with the terms of the related contracts.

XV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES

Provisions and contingent liabilities are accounted in accordance with, “Provisions, Contingent Liabilities and Contingent Assets Standard” (“TAS 37”). Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events and a reliable estimate of the amount of the obligation can be made. When the amount of the obligation cannot be estimated and there is no possibility of an outflow of resources from the Group, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

XVI. EXPLANATIONS ON CONTINGENT ASSETS

The contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group. Contingent assets are not recognised in financial statements since this may result in recognition of income that may never be realized. If an inflow of economic benefits to the Group has become probable, then the contingent asset is disclosed in the footnotes to the financial statements. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the consolidated financial statements. If it has become virtually certain that an inflow of economic benefits will arise for the Group, the asset and the related income are recognised in the consolidated financial statements of the period in which the change occurs.

XVII. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

Obligations related to employment termination and vacation rights are accounted for in accordance with “Employee Rights Standard” (“TAS 19”) and are classified under “Reserve for Employee Rights” account in the balance sheet. Under the Turkish Labour Law, the Group is required to pay a specific amount to the employees who have retired or whose employment is terminated other than the reasons specified in the Turkish Labour Law. The Group provides provision for retirement and termination liabilities by estimating the net present value of future payments of the Group arising from the retirement of employees and reflects this provision amount in the financial statements. For employee termination benefit provision calculation, future liability amounts are calculated and yearly discount rate is 2,78% (31 December 2016: 3,93%).

As of 30 September 2017, actuarial loss amounted to TL 31.178 (31 December 2016: TL 25.676 loss) is recognized under other income reserves in the financial statements.

All actuarial gains and losses are recognized under equity in accordance with revised TAS 19.

XVIII. EXPLANATIONS ON TAXATION

a. Current Tax:

According to the article no. 32 of “Corporate Tax Law” No. 5520 was published in the Official Gazette, No. 26205 dated 21 June 2006, the corporate tax rate is 20%. Corporate tax is calculated on the total income of the Group after adjusting for certain disallowable expenses, exempt income and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey or are resident corporations, are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. In applying the withholding tax rates on dividend payments to the nonresident institutions and the individuals, the withholding tax rates covered in the related “Double Tax Treaty Agreements” are taken into account. An increase in capital via issuing bonus share is not considered as profit distribution and thus does not incur withholding tax.

The prepaid taxes are calculated and paid at the rates valid for the corporate tax rate of the related years. Advance tax paid by corporations which is for the current period can be credited against the annual corporation tax calculated on their annual corporate income in the following year. Companies file their tax returns until the 25th day of the fourth month after the closing of the accounting year to which they relate.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

The tax applications for foreign branches;

Turkish Republic of Northern Cyprus (“TRNC”)

According to the Corporate Tax Law of the Turkish Republic of Northern Cyprus no.41/1976 as amended, the corporate earnings (including foreign corporations) are subject to a 10% corporate tax and 15% income tax. This tax is calculated based on the income that the taxpayers earn in an accounting period. Tax base is determined by modifying accounting income for certain exclusions and allowances for tax purposes. The corporations cannot benefit from the rights of offsetting losses, investment incentives and amortisation unless they prepare and have certified their balance sheets, income statements and accounting records used for tax calculations by an auditor authorized by the Ministry of Finance. In cases where it is revealed that the earnings of a corporation were not subject to taxation in prior years or the tax paid on such earnings are understated, additional taxes can be charged in the next seventeen days following that the related taxation period. The corporate tax returns are filed in the tax administration office in April after following the end of the accounting year to which they relate. The corporate taxes are paid in two equal instalments in May and October.

XVIII. EXPLANATIONS ON TAXATION (Continued)

b. Deferred Tax Asset/Liability:

The Group calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with “Income Taxes Standard” (“TAS 12”) and the related decrees of the BRSA concerning income taxes. In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date. Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized. Deferred tax assets and liabilities are presented as net in the financial statements in accordance with TAS 12.

Based on its best projections and budget and within the framework of TAS 12’s relevant procedures, the Parent Bank has limited its deferred tax assets with its deferred tax liabilities. The Parent Bank has not recognized deferred tax receivables amounting to TL 124.037 as assets as of 30 September 2017 (31 December 2016: TL 151.679). Aforementioned assessment will be reevaluated and reperformed on every following reporting date.

Various operations and calculations with unascertained effects on final tax amount occur during standard workflow, which require important judgement in determining income tax provision. Parent Bank records tax liabilities caused by projections of additional taxes to be paid as a result of tax related incidents. In cases which final tax results based on these incidents differ from initially recorded amounts, differences may effect income tax and deferred tax assets of the period they are recognized.

c. Transfer Pricing:

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this topic. According to this communiqué, the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. As stated in the “7.1 Annual Documentation” section of this communiqué, the taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices. Group has filled out the related form and presented it to the tax office.

XIX. EXPLANATIONS ON BORROWINGS

The funds borrowed are recorded at their costs and discounted by using the effective interest rate method. In the consolidated financial statements enclosed, foreign currency borrowings are translated according to the Parent Bank’s period end counter buying exchange rate. Interest expenses of the current period regarding the borrowing amounts are recognised in the consolidated financial statements. As of 30 September 2017 and 31 December 2016, the Group has no marketable securities issued and convertible bonds.

**c. Approaches for assessment of adequacy of internal capital requirements for current and
future activities:**

The “Group’s assessment process of adequacy of internal capital requirements and capital adequacy policies” was prepared in order to describe the assessment process of adequacy of internal capital requirements and capital adequacy policies, and approved by its board of directors in 27 February 2017. The ultimate aim of this internal capital requirements process is to maintain the continuity of capital adequacy under the Parent Bank’s strategies, business plan, and scope or in case of changes in developed assumption and methodology, the assessment methodology of internal capital requirements is a developing process, accordingly the future improvement areas are determined and the working plans are set.

With this evaluation process, on a prospective basis ensuring the continuity of the legal minimum limits of capital, keeping capital adequately to support the Parent Bank’s targeted risk profile and ensuring the maintenance of capital adequately as well as the process of compliance with laws and regulations.

I. EXPLANATIONS RELATED TO COMPONENTS OF CONSOLIDATED SHAREHOLDERS’ EQUITY (Continued)

d. Explanations on reconciliation of capital items with balance sheet amounts:

The difference between Total Capital and Equity in the consolidated balance sheet mainly arises from the general provision. In the calculation of Total Capital, general provision up to 1,25% credit risk is taken into consideration as Tier II Capital. Besides, losses that are subject to deductions from Common Equity Tier I and reflected to Equity in line with the TAS, are determined by excluding the losses related to cash flow hedge transactions. On the other hand, in the calculation of the Total Capital, improvement costs for operating leases followed under tangible assets in the balance sheet, intangible assets and related deferred tax liabilities, net book value of immovables that are acquired against overdue receivables and retained more than five years, other items defined by the regulator are taken into consideration as amounts deducted from Share Capital.

II. EXPLANATIONS ON CONSOLIDATED CREDIT RISK

Not disclosed in compliance with the Article 25 of the communiqué “Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks”.

III. EXPLANATIONS ON COUNTER CYCLICAL CAPITAL BUFFER RATIO CALCULATIONS

V. EXPLANATIONS ON CONSOLIDATED INTEREST RATE RISK

There is a short term interest sensitivity gap at the balance sheet of the Bank due to a structural risk of the banking sector; obligation of funding of long-term assets with short-term deposits. Derivative financial instruments are used to mitigate possible interest rate risk of interest sensitive assets and liabilities. Interest rate futures and interest rate swap transactions are performed to reduce the balance sheet and off-balance sheet interest rate risk.

The Parent Bank managed interest rate and prepayment risks of mortgages and other long-term loans with derivative financial instruments efficiently taking into consideration cost-benefit analysis and reduced the risk against to the fluctuations in global and local markets.

VII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK

Information about the liquidity risk management including factors such as risk capacity of the Parent Bank, responsibilities and the structure of liquidity risk management, reporting of the liquidity risk within the Parent Bank and providing communication with Board of Directors and line of businesses in terms of liquidity risk strategy, policy and applications:

The Parent Bank has adopted principle of funding the liquidity and funding management of the Parent Bank with core funding instruments. Funds required must be available even under stressed conditions particular to the Bank and the Market.

The Parent Bank’s short term liquidity is managed by the Balance Sheet Management associated Treasury function. The management of liquidity and funding risks of the banking portfolio is conducted by Assets and Liabilities and Capital Management Unit (ALCM) operating under Finance department, within the framework of risk policies and risk appetite approved by Board of Directors. Board of Directors determines risk appetite and inherent risk limits of liquidity. Within approved risk appetite, inherent liquidity limits, and considering Bank’s strategy and market conditions, Assets and Liabilities Committee (ALCO) is the decision making body regarding balance sheet management, identification and efficiency of funding sources, and determination of potential risks. The Asset-Liability Management Committee is responsible for preparing middle and long term liquidity strategies.

VII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK (Continued)

Strategic funding plan forms up the primary basis of the liquidity and funding risk management, updated at least in annual basis and formed up within the scope of risk appetite. According to the strategic funding plan approved by ALCO, actions are considered in order to provide the most cost-efficient, diversified and stable funding resources in terms of maturity, currency and funding resource; to monitor and evaluate balance sheet movements and projections and the current status of the balance sheet by APSY.

In addition to that, current and planned liquidity positions of bank is tracked at tactical ALCO meetings with the participation of business representatives at least on weekly basis and business line representatives are informed in order to be taken of necessary actions. The aim of these meetings is to ensure that the negative net cash flow of the bank liquidity will not occur and be managed in a way that will not lead to excess limits by comparing the current situation regarding to the balance sheet structure of business line with the approved limit usage of strategic funding plans and liquidity.

Information regarding functioning of liquidity management and the extent of centralization in funding strategy amid the Parent Bank and its subsidiaries:

All subsidiaries of the Parent Banks’ controlling shareholder plan and manage their liquidity within the limits of their risk appetite and internal limits.

The information about the Parent Bank’s funding strategy including policies on diversification of its sources and tenor of funding:

Liquidity and funding management of the the Parent Bank adopts funding illiquid assets with core funding instruments and funds in the need of to be always available as a principle. Core funding instruments are consisted of core deposit and long term non-deposit debt instruments. Within this context, liquidity and funding management is primarily based on the stability of Banks’ deposit base and considers total core deposits as primary measurement. Deposits of retail banking customers is the primary component of funding management because they are more stable and cost-efficient compared to other line of businesses. At the same time, other debt instruments with maturities of medium and long term are also used because of diversifying and balancing funding base in terms of maturity, currency, fund resource and cost; and because their average deposit maturity is less than assets.

Information on liquidity management based on currency which consists of a minimum of 5% of the Parent Bank’s total liabilities:

Almost all of the Parent Banks’ total liabilities are in TL, USD and Euro. Liabilities in TL are generally consisted of deposits, repurchase agreements and Shareholder’s Equity. Liabilities in FC are consisted of deposits in FC and other debt instruments in FC.

Consolidated liquidity measurement of the Parent Banks’ total liquidity and selected currencies for short and long terms is planned within the context of strategic funding plan. The FC and total internal risk limits approvals of Board of Directors is available.

Information on liquidity risk mitigation techniques:

In order to lower liquidity risk, internal liquidity limits above legal limits and liquidity buffer is used. Funding resources are diversified as much as possible by planning cash inflows and outflows within the context of strategic funding plan. Therefore, effective management of concentrations is ensured in terms of maturity, currency and funding resources. The Parent Bank also uses derivative transactions in order to lower liquidity risks.

VII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK (Continued)

Explanation of the usage of stress test:

Along with legal liquidity risk calculations and restrictions, in terms of liquidity management, stress tests and scenario analyses formed up according to the international liquidity management policies of HSBC are used. In these scenarios, liquidity crisis scenarios of the Parent Bank and macro liquidity crisis scenarios are considered. Triggering factors of liquidity risk and prewarning signals are tracked. Analyses and results of liquidity risk are tracked in tactical ALCO meetings weekly and in ALCO-Market Risk Committees monthly.

General Information on liquidity emergency and contingency plans:

Liquidity Emergency and Contingency Plan is approved by the BoD and ALCO and renewed on yearly basis. Plan contains detailed analyses and information about the actions to be taken in crisis management and employees responsible for the process, liquidity Access resources, liquidity situation of the Parent Bank, early warning indicators within graded liquidity crisis scenarios.

a. Liquidity coverage rate:

The change in matters that impact liquidity coverage rate and units that are used for the calculation of the ratio:

Liquidity coverage rate is calculated by dividing high quality liquid assets that bank owns to net cash outflows with maturity of 1 month. Reserve requirements kept by CBRT, reverse repurchase agreements, securities that are not subject to repurchase/collateral held for providing liquidity, corporate and bank deposits that may cause high cash outflows, non-deposit borrowings that are became due and receivables from banks form the most important components to affect the results of liquidity coverage rate because of being liquid assets, having high volume in net cash outflows and having high rate of consideration.

Since the internal liquidity limits of the Parent Bank is more conservative compared to liquidity coverage rate, bank liquidity coverage rate is greater than legal and internal limits. The ratio may fluctuate periodically due to reasons listed below;

- Changes in reserve requirements because of using FC reserve option in reserve requirement accounts kept by CBRT.
- Transfer of the short-term liquidity to Money markets instead of debt instruments issued by CBRT based on market conditions.
- Fluctuation of bank and corporate deposits that are highly considered in fund resources.
- Fluctuations that may occur due to the aging of non-deposit borrowings.
- Less than 1 month remaining maturity of cash inflows/outflows resulted specifically from FC derivative transactions.

Explanation regarding the components of high quality liquid assets:

High quality liquid assets are consisted of cash, effective depot, cheques purchased, time and demand deposit by CBRT, overnight borrowing provided to banks via CBRT in Interbank Money Market, reverse repurchase transactions and securities that are not subject to repurchase/collateral for providing liquidity.

VII. EXPLANATIONS ON CONSOLIDATED LIQUIDITY RISK (Continued)

Components density of fund resources in all funds:

The Parent Bank’s funding sources are consisted of real person and retail deposit, corporate bank deposits, repurchase agreements and borrowings. Deposits that are used for funding consists 68% of total liabilities.

Information about cash outflows resulted from derivative transactions and transactions that are likely to be collateralized:

Cash outflows resulted from derivative transactions are taken into account of liquidity coverage rate calculation by considering TL and FC net cash flows with 30-days maturity. Net cash flows resulted from derivative transactions have minimal effect on total liquidity coverage rate, however, differences in derivative volumes because of FC derivatives used in the management of cash flows based on currencies and because of incoming maturities of derivative transactions, periodic fluctuations on FC liquidity coverage rate may occur.

Concentration limits of collaterals in terms of fund resources based on counterparty and products:

Within the context of strategic funding plan, cash inflows and outflows are planned and effective management of concentration of fund resources in terms of maturity, currency and fund resource is aimed. In the context, customer-based deposit concentrations, limits and usages set up for the counterparties in non-deposit borrowings and maturity-based distribution of non-deposit borrowings are tracked and reported to ALCO every month periodically.

Exposed liquidity risk in the need of funding based on the bank itself, foreign brances and consolidated subsidiaries while considering operational and legal factors hampering liquidity transfer:

Liquidity risks of the Parent Bank’s foreign brances are managed in compliance with the regulations of related country.

2. Information on employee benefit provisions:

As of 30 September 2017 the Group has employee termination benefit provision amounting to TL 57.357 (31 December 2016: TL 49.779), and unused vacation provision amounting to TL 7.810 (31 December 2016: TL 6.524).

In accordance with existing Turkish Labour Law, the Group is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Bank and whose employment is terminated due to retirement or for reasons other than resignation or as mentioned in related legislation.

The computation of the liability is based upon the retirement pay ceiling announced. The applicable ceiling amount is TL 4.732,48 (full TL) (31 December 2016: TL 4.297,21 (full TL)). Employee termination benefit liability is not legally dependent on any kind of funding, and there is no requirement on funding.

The reserve for employment termination benefits represents the present value of the estimated total liability for the future probable obligation of the Group determined by using certain actuarial assumptions. TAS 19 requires actuarial valuation methods to be used in order to calculate Bank’s liabilities.

The assumption is that retirement pay ceiling is expected to increase as per the inflation rate every year. Thus discount rate applied shall represent real rate, net of inflation. Since retirement pay ceiling amount is determined once every six months, employee benefit liability of the Bank is calculated from the ceiling amount valid from 1 July 2017, TL 4.732,48 (full TL) (31 December 2016: TL 4.297,21 (full TL)).

IV. EXPLANATIONS AND NOTES RELATED TO THE CONSOLIDATED INCOME STATEMENT (Continued)

k. Explanations on net profit and loss for the period:

1. Any further explanation on operating results needed for a proper understanding of the Bank’s performance:

Net interest income, amounting to TL 1.003.720 (30 September 2016: TL 737.009), net wage and commission income amounting to TL 291.971 (30 September 2016: TL 322.216) have an important role among the income items in the accounting period ending on 30 September 2017. The wage and commission income received from cash loans are presented in the net interest income. Considering the distribution in interest income, the most important sources of the Group’s interest income are the interests received from loans and intrabank money market. The main portion of the interest expenses consists of the interests paid for deposits and loans received. The most important portion of the commission income consists of the commissions received from credit card transactions and other banking transactions.

2. The effect on the current period profit/loss of the changes in estimations related to financial statements made by the Group, explanation if any effect of these changes in the subsequent periods:

No changes have been made in the accounting estimates which may have a material effect in current period and materially affect subsequent periods.

Message from David Eldon, Chairman

The synchronised global economic recovery seen in the last quarter has continued in the third quarter of 2017. HSBC Global Research has recently revised global economic growth forecasts upwards, anticipating that loose global financial conditions will continue to drive economic recovery. Our forecasts for global GDP growth are at 2,8% this year and the next, both up from 2,7% expected earlier, and 2,7% in 2019.

This is predominantly the reflection of the upward revision of the Developed Markets growth forecasts, in particular in the Eurozone thanks to the strong cyclical economic activity, which is expected to have a positive ripple effect on emerging markets. The expected growth rates for the developed world have been revised up to 2,2% from 1,9% for 2017, whilst Emerging Markets growth is forecast to be at a solid 4,4% and 4,6% in 2017 and 2018 respectively before accelerating to 5,0% in 2019; the fastest pace since 2011. Among the EMs, China's growth expectation are tilted upwards at 6,7% in 2017 and 2018 increasing to 6,9% in 2019.

Despite relatively strong economic activity, global and EM inflation is still benign and HSBC expects global inflation to hit 2,6% in 2017, and 2,5% in 2018, revised down from 2,8% and 2,6% respectively, whilst 2019 global inflation is expected to be marginally higher at 2,6%. Meanwhile, EM inflation is revised down to 3,2% from 3,6% in 2017 and 3,3% from 3,4% in 2018. 2019 EM inflation is also projected to be fairly benign at 3,2%.

Turning to Turkey, the economy enjoyed a sharp pick-up in 1H17 thanks to accelerated loan growth driven by the Credit Guarantee Fund. Economic activity expanded by 5,1% YoY in 1H17, and that momentum continued in the third quarter of 2017 according to the monthly economic activity figures. A high single-digit growth rate for the third quarter of 2017 is being generally anticipated partially thanks to the contraction in economic activity in the third quarter last year. CPI inflation was at 11,2% as of September, well above the official inflation target of 5%, reflecting past lira weakness, high food inflation and deteriorating pricing behaviour. Given double-digit inflation, the Turkish Central Bank has kept the monetary policy relatively tight during recent months despite relatively loose global financial conditions abroad.

As Turkey continues to develop, HSBC Turkey remains well positioned to support the country's businesses, whether they seek expansion capital, access to trade corridors, payments cash management solutions, derivatives products or M&A/IPO advisory services. We will also continue to serve our premium retail clients through Retail Banking and Wealth Management, helping them to achieve their personal financial goals.

I would like to thank the Board, the Management Team, our Colleagues and our Clients for their continuing commitment to HSBC.

Message from Süleyman Selim Kervancı , CEO

Turkish economy expanded 5,1% year on year in the second quarter of 2017, showing a strong recovery in investments and exports, helped by the government's fiscal stimulus measures. Private consumption rose by 3,2% year on year (1,9 pps contribution), whilst government spending fell by 4,3% year on year (-0,6 pps), after growing by 9,7% in the first quarter of 2017. Net exports were strong for the second quarter in a row (1,7 pps), exports rising by 10,5%, while imports rose by 2,3% year on year. Fixed investment growth accelerated sharply from 3,0% to 9,5% year on year (2,9pps). Meanwhile, sales from stocks erased 0.8 pps from the growth in the second quarter of 2017.

During 9M17 the banking sector in Turkey achieved a net income of TL 37.2 bn, with a robust growth of 28,6% year on year. Total asset growth realised as 20,5% for the same term reaching to TL 3.1 trillion. Loans rose to 1.99 trillion liras as of 30 September 2017, compared to 1.6 trillion liras of loans at the end of Sep17 last year. The total amount of deposits including the FX deposits in Turkish banks reached 1.6 trillion liras at the end of Sep17, marking a 22% year on year yearly increase. The banking sector's capital adequacy ratio was at 17,2% in Sep17, while the ratio of non-performing loans to total loans stood at 3,15%. The improvement in the banking sector's earnings is driven by the loan growth, lower net cost of risk, and positive fee growth, despite increasing NIM pressure and operating expense growth. Whilst increasing the interest rate for late liquidity window facility by 50 bps to 12,25% in April, Turkey's central bank kept all its main interest rates unchanged since then and maintained the focus on a tight monetary policy stance until the outlook for consumer inflation improves.

At HSBC, we aim to contribute to the ongoing success of the Turkish economy and banking industry, primarily by leveraging our global connectivity and expertise to offer a unique value proposition to our customers. In recent months, we have continued to execute landmark transactions for a wide range of private and public sector clients through our core Wholesale business lines and product areas, including Global Banking & Markets, Commercial Banking, Global Trade and Receivables Finance, and Global Liquidity Cash Management. Meanwhile, driven by strong client-relationship management in Retail Banking and Wealth, we have continued to grow and develop our premium and wealth management propositions.

2016 has been a restructuring year whereas strategic restructuring programme that was undertaken in 2016 has laid a strong foundation for sustainable, long-term profitability. In 2017, as an investment year, we focused on strengthening system architecture being widely utilised throughout the whole enterprise, as well as on optimising asset portfolio by risk-based approach to ensure that risks are managed more effectively. We can already observe positive impacts of our successfully implemented strategies on our 9M2017 results. Year on year comparisons to the 2016 financials show a business which turned to profitability since the beginning of 2017; the third quarter of 2017 figures show operating income falling 15,4% from the third quarter of 2016, to TRY 1.138 m and total operating expenses falling 23,7% from the third quarter of 2016, to TRY 737 m, with a positive jaws despite ongoing restructuring costs, HSBC Turkey recorded a profit before tax of TRY 116.8m as of the third quarter of 2017. Our cost/income ratio was 64,7%.

As of the third quarter of 2017, the loan portfolio decreased 1,6% over YE16 to TRY 15.4 bn, however it is worth mentioning that despite this small shrink, we concentrated on the loan book in our core client segment with the new strategy and grew it by 35%. The deposits rose 10,3% over YE16, to TRY 16.7 bn. The HSBC Turkey NPL ratio was 5,8% at end-September 2017, and the capital adequacy ratio was 17,3%, above the Banking Regulation and Supervision Agency target minimum ratio of 12%.

In closing, I would like to thank my management team and all of our colleagues for their commitment and dedication, as well as our clients for giving us their confidence and trust.
